Ruled by a Supreme Elect chosen by the people, Andoran is surrounded by aristocratic enemies who believe the republic is an experiment doomed to failure, but who also fear its growing power. Within its own borders, Andoran must face the threat of the greedy Lumber Consortium, warbands of hobgoblins, tribes of werewolves, and increasingly violent creatures of the wilds who are enraged at seeing their forests destroyed for profit. The section on Almas looks at sites of interest in each of the districts of the city. In addition to the adventure sites, however, this chapter also includes a how-to on including political intrigue in games. Political intrigue could easily be that factor, but the book doesn't spend enough time on the politics, focusing instead on generic adventure locations. That said, it can still come across as somewhat "standard" with little other than its democracy making it stand out from other fantasy settings. Rather unusually for a fantasy setting, it is a democracy, where everyone is theoretically treated equally and everyone has a chance to live the American dream (I use that terminology deliberately, for Andoran's real-world influence is quite obviously the United States of America; Andoran was formed by people who rebelled against the oppressive power that formerly ruled over them). They do successfully provide a starting point for gamemasters to generate ideas from, but nonetheless lack key information. As well as containing several new creatures native to Andoran, the bestiary also contains stats for typical NPCs that might be encountered in the country, including Eagle Knights and corrupt politicians. The final chapter of the book is a bestiary. Discover details on some of Andoran's most defining organizations, from the abolitionist Eagle Knights to the greedy Lumber Consortium. But that's just the surface of Andoran. You can learn more about how we (plus approved third parties) use cookies and how to change your settings by visiting the Cookies notice. You can learn more about our use of cookies hereAre you happy to accept cookies? Show less Show more Advertising ON OFF If you agree, we will use cookies to complement your shopping experience, as described in our Cookie Notice Show less Show more 18 ratings 3.72 out of 5 stars 5 17% (3) 4 44% (8) 3 33% (6) 2 6% (1) 1 0% (0) {"bd_js_shop":"Shop","bd_js_too long for shipping label":"Sorry, that's too long for our shipping labels","bd_omnibus_ph1_price_statement_suffix":"vs RRP","bd_js_too long":"Sorry, that's too long","bd_js could not find address try again":"Sorry, we couldn't find the address. We use cookies to conduct research and diagnostics to improve our content, products and services, and to measure and analyse the performance of our services. Andoran, Birthplace of Freedom is not the first book published on this country. The Eagle Knights are, of course, the most significant of these, and so the Eagle Knights receive the most coverage of the organizations in this chapter, with extensive detail on all three of the main divisions (the Golden Legion, Steel Falcons, and Twilight Talons), as well as the Gray Corsairs, which are a sub-branch of the Steel Falcons. New monsters, NPCs, random encounter tables, a full write-up of the nation's patron agathion, and more! " Cookies are used to provide, analyse and improve our services; provide chat tools; and showyou relevant content on advertising. Take the Seven Houses, for example. Not surprisingly, there is some overlap between the three books, but not nearly as much as one might expect, particularly between Birthplace of Freedom and Spirit of Liberty, which both nominally cover the entire country. The text provides some information on how the group operates as a whole, but none at all on the seven houses making up the organization or what roles these houses used to play in pre-democracy Andoran. However, the first section offers an overview of the history and government of Andoran, including a timeline. Three other significant factions also receive coverage in this chapter (the Lumber Consortium, Primordial Ones, and the Seven Houses), although with only a single page devoted to each (as opposed to the five pages on the Eagle Knights). While a country with few problems may be a great place to live in, it is perhaps not the greatest place to adventure in. It is an alliance of seven former noble houses that wish to abolish Andoran's democracy and bring back the old aristocracy. This is less of a problem than it is for a book like Numeria, Land of Fallen Stars, since Andoran is a country that players and GMs can more easily relate their real-world experiences to. Andoran is particularly well-suited to political adventure, so I'm glad to see this topic covered here. A few years ago, there was Andoran, Spirit of Liberty, part of the Pathfinder Player Companion line (then just Pathfinder Companion). Birthplace is twice the length of Spirit of Liberty for a start, but even so, Birthplace repeats very little from Spirit. By itself, I think Birthplace of Freedom will be a very useful tool for people who have already decided to set an adventure or campaign in Andoran. Because we use cookies to provide you our services, they cannot be disabled when used for these purposes. That book showed just how much opportunity for adventure there is within that particular region of Andoran, and presented a setting that rose beyond its somewhat standard surface appearance. Essential We use cookies to provide our services, for example, to keep track of items stored in your shopping basket, prevent fraudulent activity, improve the security of our services, keep track of your specific preferences (such as currency or language preferences), and display features, products and services that might be of interest to you. A bestiary of new monsters rounds out this 64-page guide to one of the most heroic lands in the world of the Pathfinder RPG! Read View source View history Andoran, Birthplace of Freedom, a Pathfinder Campaign Setting sourcebook by Tim Hitchcock and Jason Nelson, was released on May 27, 2015. It opens with a gazetteer that is, itself, split into further sections based on the regions within Andoran. Along with expanded detail on the factions in the previous chapter, it could provide an interesting focus for Andoran adventures, giving Andoran something to make it stand out more and seem a little less dull. Within its own borders, Andoran must face the threat of the greedy Lumber Consortium, warbands of hobgoblins, tribes of werewolves, and increasingly violent creatures of the wilds who are enraged at seeing their forests destroyed for profit.Whether your players are noble supporters of freedom, agents of older empires, or opportunists seeking to carve out their own places in a young nation, this book has everything you need to run a campaign in the tumultuous land of Andoran, including: In-depth gazetteers of Andoran's settlements, from the seaport capital of Almas to the Lumber Consortium-controlled city of Oregent, and all the minor settlements clinging to existence on the dangerous wilderness frontiers.- Details on the organization of the Eagle Knights, including the Golden Legion, Steel Falcons, Twilight Talons, and Gray Corsairs.- Secrets of groups with no loyalty to the government of Andoran, and the deposed nobles of the Seven Houses.- Numerous adventure sites ripe for exploration, including the fey-ruled Candlestone Caverns and the ancient burial mounds of the Nogortha Necropolis, plus a detailed regional map that allows heroes to navigate the untamed lands between civilized settlements.- New monsters, NPCs, random encounter tables, a full write-up of the nation's patron agathion, and more!Cover art by Igor GrechanyiRole Playing Games Fantasy Stock Image Stock Photo: Cover May Be Different Explore the nation of Andoran, a young, freedom-loving realm struggling to survive against imperialistic neighbors and the dangers of a rugged wilderness. Whether your players are noble supporters of freedom, agents of older empires, or opportunists seeking to carve out their own places in a young nation, this book has everything you need to run a campaign in the tumultuous land of Andoran, including: In-depth gazetteers of Andoran's settlements, from the seaport capital of Almas to the Lumber Consortium-controlled city of Oregent, and all the minor settlements clinging to existence on the dangerous wilderness frontiers. Andoran, Birthplace of Freedom is laid out similarly to most regional sourcebooks in the Campaign Setting line from the past few years. While it may appear quiet and dull, there are opportunities for adventurers to make their mark—particularly in politics. Following the gazetteer, the second chapter of the book focuses on the major factions existing in Andoran—the organizations that vie for influence and control in the country. Show less Show more Performance and Analytics ON OFF If you agree, we will use cookies to understand how customers use our services (for example, by measuring site visits) so we can make improvements. Details on the organization of the Eagle Knights, including the Golden Legion, Steel Falcons, Twilight Talons, and Gray Corsairs. Learn about the land's many regions, from thriving cities to fey-haunted forests. On the whole, Andoran, Birthplace of Freedom is a decent book, but much like the country it describes, there's not a lot that really makes it stand out. With the exception of the section on Almas, each section then looks at a key city or settlement in the region and then looks briefly at other settlements and sites of interest. The third chapter covers adventure sites in Andoran. It can seem dull, even boring. Both Birthplace and Spirit can work together to make an excellent resource on the whole country. Numerous adventure sites ripe for exploration, including the fey-ruled Candlestone Caverns and the ancient burial mounds of the Nogortha Necropolis, plus a detailed regional map that allows heroes to navigate the untamed lands between civilized settlements. This section is fairly brief (only a couple pages long) and doesn't go into a lot of detail, but it's enough to introduce the country to people unfamiliar with it. We use cookies and similar tools that are necessary to enable you to make purchases, including those used by approved third parties (collectively, "cookies") for the purposes described below. However, I don't think it's likely to attract new people to the setting. That book was published at a time when the Companion books weren't as focused on character options as they are nowadays, and as such contains a lot of details on lifestyle that are absent from more recent books. Before that, there was Guide to Darkmoon Vale, Secrets of groups with no loyalty to the government of Andoran, including the thuggish Lumber Consortium and the deposed nobles of the Seven Houses. There is a lot going on in Andoran that can make it a great place to set adventures, but the book doesn't do a particularly good job drawing attention to them, partly because it needs to cover everything about Andoran, which includes all the less interesting stuff going on as well. It is a land that is seen as being somewhat idyllic, a country that has worked out most of its problems. I do wish the book provided a bit more detail on the last three factions, as they are the factions most likely to be antagonists to PCs (although the Lumber Consortium has received quite a bit of detail in other sources, particularly, the Guide to Darkmoon Vale, so more detail on the other two would probably be sufficient). Birthplace is a competent book, but it's not an exciting book, and Andoran really needs something exciting. The regional sections of the gazetteer begin with Almas, Andoran's capital city, and then cover the larger regions of Arthfell, the Carpenden Plains, Darkmoon Vale, and the Verduran Forest. The choices you make here will apply to your interaction with this service on this device. As it is, while there is a fair bit of variety among the adventure sites with opposition ranging from fey to lycanthropes to undead, there's not really a lot that makes them unique to Andoran, rather than monsters and sites that PCs might run into anywhere else in the world. These locations are mentioned briefly in the gazetteer, but are covered in more detail in this chapter. " Wedged between the crumbling empire of Taldor and the devil-worshippers of Chelixa, the self-made nation of Andoran shines proudly on the coast of the Inner Sea. The country certainly isn't perfect, and there are many things going on under the surface in this land that keep it from truly reaching its vaunted ideals. This group's name is quite literal. Please try again","bd_saving_percent_off":"{0}% off","bd_js_total basket count":"{0} plural, one (You have 1 item in your basket) other (You have # items in your basket)"},"bd_js_total cost":"Total cost: {0}","bd_js_show less":"show less","bd_js_item added to your basket":"Item added to your basket","bd_rrp":"RRP","bd_link_prefix":"","bd_js_unable get address enter manually":"Sorry, we are unable to get the address. Each of these sections opens with an overview of the region. It lacks the "Cool" factor it needs to overcome the fact that, on the surface, Andoran doesn't look all that different to countless other generic fantasy settings out there. Jump to ratings and reviewsWedged between the crumbling empire of Taldor and the devil-worshippers of Chelixa, the self-made nation of Andoran shines proudly on the coast of the Inner Sea. With a complete overview of Andoran's history, this book provides countless seeds for intrigue and adventure. Like many of the more recent regional sourcebooks, Birthplace of Freedom also doesn't do a very good job conveying what it's like to live in the country, focusing instead on being a guide to locations within the country. Indeed, it would have been nice if this chapter had included a few political-based adventure ideas along with the adventure sites. Birthplace also has the added advantage I mentioned above of having a companion volume in Andoran, Spirit of Liberty. Guide to Darkmoon Vale showed that such a factor exists for that region of Andoran, so there's no reason one shouldn't exist for the rest of the country. Indeed, the two books complement each other in a way very few Pathfinder Campaign Setting/Player Companion books do, with the earlier Spirit of Liberty offering many of the things I would otherwise criticise Birthplace for not containing. We don't even learn their names (although the names of three notable members possibly provide the names of three of the houses).

Creator Spotlight: Vanessa Hoskins. 57 minutes ago. Welcome to our Creator Spotlight blog series! Nearly every Monday, we'll focus on a different wonderful industry creator, as an individual, including Paizo staff, freelancers, contractors, podcast players, streamers, YouTubers, licensed partners, and more.
